

Agency.Agency

AgencyController.ChangePassword

PasswordHelper.CreatePasswordHash

```
graph LR; A[Agency.Agency] --> C[PasswordHelper.CreatePasswordHash]; B[AgencyController.ChangePassword] --> C;
```

The diagram illustrates two callers of the `PasswordHelper.CreatePasswordHash` method. On the left, two rectangular boxes represent the callers: `Agency.Agency` (top) and `AgencyController.ChangePassword` (bottom). On the right, a gray rectangular box represents the target method: `PasswordHelper.CreatePasswordHash`. Two blue arrows point from the right side of each caller box to the left side of the target box, indicating the flow of the method call.
