

Lean.Common.LeanPlane.Get  
Closest

Lean.Common.LeanPlane.Try  
Raycast

Lean.Common.LeanPlane.Get  
Closest

```
graph LR; A[Lean.Common.LeanPlane.Get Closest] --> C[Lean.Common.LeanPlane.Get Closest]; B[Lean.Common.LeanPlane.Try Raycast] --> C;
```

The diagram illustrates a relationship between three methods. On the left, two white rectangular boxes with black borders represent source methods. The top box contains the text 'Lean.Common.LeanPlane.Get Closest' and the bottom box contains 'Lean.Common.LeanPlane.Try Raycast'. On the right, a gray rectangular box with a black border represents the target method, containing the text 'Lean.Common.LeanPlane.Get Closest'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source methods are implemented by or delegate to the target method.
