

GameRecordController.Get
DualEnd

GameRecordController.Get
DualEndingData

GameRecordService.GetContent
MyRankingWithNeighbors

```
graph LR; A[GameRecordController.GetDualEnd] --> C[GameRecordService.GetContentMyRankingWithNeighbors]; B[GameRecordController.GetDualEndingData] --> C;
```

The diagram illustrates two method calls from the GameRecordController to the GameRecordService. On the left, two white rectangular boxes represent the controller methods: 'GameRecordController.GetDualEnd' and 'GameRecordController.GetDualEndingData'. On the right, a gray rectangular box represents the service method: 'GameRecordService.GetContentMyRankingWithNeighbors'. Two blue arrows point from each controller method box to the service method box, indicating the direction of the calls.
